DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 10-12, 14 and 15 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by WO Pat. No. 2004/028306 to Gladney (note especially Figures 6-8; page 5, lines 23-30 and page 8, lines 8-29).

Response to Amendment

In response to Applicants' arguments on pages 8 and 9 of their amendment concerning the England '926 and Langdale '997 references, the examiner respectfully agrees. Consequently, the claim rejections under England '926 and Langdale '997 have been respectfully withdrawn.

Furthermore, in response to Applicants' arguments on pages 8 and 9 of their amendment regarding Gladney '306, the examiner respectfully disagrees, and asserts that Gladney '306 still discloses the use of a bracket (40) including a channel defined by spaced opposing walls as claimed since this configuration is clearly shown in Figure 8 and described in page 8, lines 17-20. Hence, the claim rejections under Gladney '306 have been respectfully maintained.

Allowable Subject Matter

3. Claims 1-9 are allowed.
4. Claim 13 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Piana et al. '587.
6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

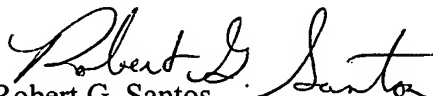

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
